

## Mi Smart Space Heater S EU

According to Data Act, the Mi Smart Space Heater S EU is classified as a connected product. In general, the product data and related service data processed by Mi Smart Space Heater are as follows. If you wish to access, retrieve or erase relevant data, please contact <http://dataact.mi.com/>.

### 1. Product Data

Data Type	Purpose of Data Processing	Data Format	Estimated Volume	Whether generating data continuously and in real-time	On-device or Cloud Storage	Intended Retention Period
Brightness data	Monitor brightness status	JSON	about 1 byte	Real-time generation	Store locally before uploading to the cloud	As per the needs of contract and service performance. In general, users can delete the data themselves or ask Xiaomi to delete it. The ordinary intended retention
Prompt tone	Allow users to turn on or off temperature change alerts	JSON	about 1 byte	Real-time generation	Store locally before uploading to the cloud	
Temperature	Performing temperature	JSON	about 4 bytes	Real-time generation	Cloud Storage	

Data	recording, remotely controlling the electric heater to turn on or off, etc.					period ranges from 90 days to 550 days.
Fault Data	Performing Fault Recording and Analysis	JSON	about 1 byte	Collect only when the condition is triggered	Cloud Storage	

## 2. Relevant Service Data

This product is compatible with the Mi Home/Xiaomi Home app. You can use the Mi Home/Xiaomi Home app to add and control your devices. If you use such digital services, the following related service data will generally be generated.

Data Nature	Purpose of Processing	Estimated Volume	Storage Method and Retention Period	How to Access or Retrieve Data
Non-personal data	Implement remote operation functions (such as remotely turning on or off an electric heater)	Each report is approximately 1 byte.	Cloud Storage;  As per the needs of contract and service performance. In general, users can delete the data themselves or ask Xiaomi to delete it. The ordinary intended retention period ranges from 90 days to 550 days.	If you wish to access the relevant data, please contact <a href="http://dataact.mi.com/">http://dataact.mi.com/</a>
Non-personal data	Child lock function: Use the child lock function to prevent children from changing the settings	Each report is about 4 bytes.		

<b>Data holder's identity, name, and contact information</b>	<b>Contract term; How to terminate it?</b>	<b>Who is the holder of the trade secret (if any)?</b>
Xiaomi Technology Netherlands B.V. Prinses Margrietplantsoen 392595 AM, The Hague, The Netherlands <a href="http://dataact.mi.com/">http://dataact.mi.com/</a>	<p>In general, the contract for providing related services will be valid until consumers terminate it or withdraw their consent for data processing.</p> <p>The general way for terminating the contract is to withdraw consent through the Mi Home/Xiaomi Home app or by visiting <a href="http://dataact.mi.com/">http://dataact.mi.com/</a>.</p>	Xiaomi Technology Netherlands

#### **Will Xiaomi use such related service data and for what?**

Yes, Xiaomi will use this kind of data so as to fulfill the purposes as indicated above.

#### **Will Xiaomi share with third parties?**

In general, the answer is negative. Xiaomi will ask for the consent of users in the cases that it needs to invite third parties to provide services for users.

#### **Users' Right to Lodge a Complaint**

According to Article 3 (3) (g) of Data Act, users have the right to lodge a complaint with the supervisory authority of the Member State regarding, among others, data disclosure or sharing.

At the time of publication of this document, EU Member States are working on designating the authorities of accepting complaints related to Data Act, and we will keep you updated if there are any progress.
